A Social Credit Study Group Formed In Arrowwood

About 40 people assembled in Cranton Hall Monday evening when a Social Credit Study Group was formed. Arrangements were made for future meetings and a radio will be installed in the hall so that the hall so that the regular Tuesday night Social Credit Broadcasts from Calgary may be heard at the meetings. An attempt will be made by the Group to bring in outside speakers at various intervals. And remember, ladies, you are just as welcome to attend these meetings as the men.

The minutes of the meeting are as follows:

The President, Mr. L. H. Irwin, asked for nominations for chairman for the meeting and on motion by Mr. Taylor, seconded by Mr. Anderson, Mr. Irwin was nominated to the chair.

Moved by Mr. Leonard and carried that the subject for the meeting should be the British North America Act. Moved by C. L. Archambault, seconded by L. Henry, that the Group meet each Tuesday at 8 p.m. Carried.

Collection for the meeting totalled \$5.30, together with the \$11. already on hand, less \$15.00 rent of building left the sum of \$15.00 in the treasury.

Moved by Mr. Anderson that these funds be forwarded to Mr. Abernethy and be used in the general campaign funds, at his own discretion. Carried.

The chairman for the next meeting, Mr. Lewendon, nominated by R. Anderson, seconded by L. Henry.

On a motion by Dr. E. J. Liesemer the meeting adjourned.

Milo Notes

Mr. Roy Haggins has returned home from Calgary and is on duty once more at the Federal Elevator.

Mr. E. Beuchman was a business visitor to Calgary during the week.

The Farmers' Co-Operative Store have moved into the St. Peters Hardware building.

The Social Credit debate was billed for Tuesday evening and not Monday as printed last week. A report will appear in next week's edition.

Hockey and skating on the Milo rink had to be discontinued for the time being, owing to mild weather.

Mrs. P. H. Coleman, teacher of Piano, Vocal, Theory, Counterpoint and Harmony, Piano Classes every Tuesday in the Arrowwood consolidated school—in Milo every Wednesday.

Miss Irene Hesketh accompanied by Miss Marion Coleman of Arrowwood, were visitors at the home of Mrs. Venie land on Monday.

Baptist Church Service every Sunday at 11 p.m.

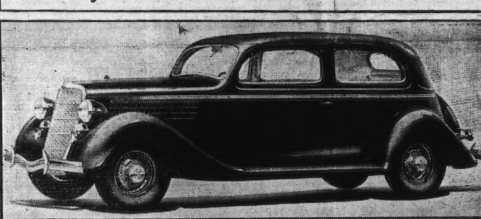

ANTLES of purest crystal snow spreading over glen and vale, the smooth sparkling surface of rivers and lakes and the joyous tinkling of sleigh bells remind one that the season for beneficial and enjoyable winter sports is again at hand. Other forms of recreational activities are, for the time being, quite forgotten. The toboggan, ski, skate and sled are taken from their summer store-rooms and properly conditioned for the season's festivities. Children whose years scarcely exceed the finger-nails of a hand, youths of teen age, adults of middle life and frequently those whose years are well extended toward the allotted span of life, all join in the merriest of typical Canadian winter sports.

During the winter season every settled area in Canada is as easily accessible by railroad as in the summer and autumn months. Many miles of provincial highways are kept free of snow enabling the motorist to reach cities, towns and villages of international repute as winter sport centres. Nearly everywhere are natural sites for skiing, snowshoeing and tobogganing. Covered rinks for hockey, skating and curling are found in cities, towns and many smaller centres, while open-air rinks are legion. Carnival days, including bonspiel, toboggan racing, hockey matches, figure skating competitions, ski-jumping contests, snowshoe processions, and fireworks displays, add greatly to the enjoyment of a Canadian winter season.

The National Parks of Canada, Department of the Interior, Ottawa, will gladly supply information pertaining to Canada's winter sport attractions.

New Body Lines and More Room in 1935 Ford V-8

THE largest and roomiest cars Ford has ever built, with new body lines of advanced streamline design, are illustrated above in this Ford V-8 de luxe Tudor sedan for 1935. Sedan seat six passengers in comfort. Luxurious appointments are new. The eleven body types are all finished in new baked enamel which is said to need only washing to restore its high luster. Cars are approximately eight inches longer from bumper to bumper and seat six passengers. Chassis improvements, including moving the engine forward more than eight inches and new spring suspension, add to riding comfort, especially of rear seat passengers. Directed-flow crankcase ventilation is an improvement of the 90 horsepower V-8 engine.

Buffalo Hill News

There will be a dance at the Buffalo School on Friday Feb. 15, weather permitting. The usual good time is promised. Ladies please remember the date, Good Music. Admission 35c ladies free. Lunch provided.

Mr. John Fitzpatrick who has been in the Hospital with a broken leg is progressing favorably. He returned home last Sunday. We hope he continues to make good progress.

Mrs. Florence Norton has been visiting with Shirley McInelly for a few days.

Mr. M. P. Marshall who has been doctoring for his heart trouble and nervous breakdown having gone to considerable expense by going to the coast for treatment, hasn't benefited much therefrom, finding it necessary to remain in bed considerably to help his condition. We would be glad to see him

regain his former health.

William Wilson, farmer in the Rathwell district south of Macleod, while walking in the garden on Sunday afternoon kicked up a number of live grasshoppers, and brought a lot of them into town. They are about half an inch long and he says the ground was thick with them.—Lethbridge Herald.

Queenstown Items

The W. I. met at the home of Mrs. Moyer, ten members being present. The various committees reports were very interesting. Everyone was very much enthused about the exhibit it to be shown in Edmonton this year at the convention to be held in May. The Glarry W. I. is giving a prize for the best mending done. The W. I. paper was very much enjoyed being given by the Editor, Mrs. Lund. Mrs. Weberg and Mrs. McLaughlin were hostesses for the day.

A dance sponsored by the Hall Committee will be held in the Queenstown Hall on Friday

Feb. 15.

Mrs. Allan Robertson has been the guest of her sister, Mrs. Asselstine, for the past few weeks.

Mr. Cann was called very suddenly to New Westminster to see his wife who is critically ill. Mrs. O'Leary is in charge of the store during Mr. Cann's absence.

Miss T. Louis was a visitor at the home of her parents at Picture Butte on Tuesday Feb. 12.

Mrs. M. Lavridson who has been the guest of Mr. and Mrs. J. Winkler the past week has returned to her home in Standart.

Mr. Reg Campbell is a business visitor to Calgary.

A good time was reported by all who attended the Pioneer Young People's dance which was held in the school on Friday Feb. 8.

Miss J. Blinn, our local teacher who had the misfortune to break her leg before Xmas is convalescing at the home of her parents in Calgary.

Arrowwood Notes

For Sale—Four turkey hens \$1.25 each. Apply Lyle Farm.

Dressmaking—Apply, Mrs. Beach, opposite U.G.G. Elevator, Mossleigh.

FOR SALE—3 Brood Sows, for particulars apply to P. L. Pike.

FOR SALE—Potatoes, large home-grown, also milk cows, fresh and due to freshen soon. Apply, V. E. Vancil.

Dance in Mossleigh next Friday night, Feb. 22. Orchestra: Si Hopkins.

The W.A. are planning a sale of Aprons and Home Cooking to be held in the near future. Further particulars later.

Mr. and Mrs. Bob Russell and family of Herrinton spent Sunday Feb. 3 with Mr. and Mrs. Moir.

Have a heart and accept our invitation to attend a Valentine heart social Tuesday, Feb. 19, at the Hall home at 8 p.m.

Joint meeting of U.F.A. and U.P.W.A. at home of Mr. and Mrs. M. Pinkerton was held last night.

Mr. and Mrs. C. Hale and Mr. and Mrs. Underwood of Vulcan were visitors at the home of Mr. and Mrs. B. W. Ingraham Sunday, Feb. 10.

A number of friends of Mr. and Mrs. Walter Steiner gathered at the Steiner home last Friday evening for a surprise party. The evening was spent very enjoyably in playing cards and dancing.

An attractive boxing card has been arranged by Promoter Sam Moss of Arrowwood for Wednesday Feb. 20th at Queenstown. Local boxers participating in this event are George Roberts, Delbert Miller, Raymond Moss and Alvin Garraway. A dance will be held after

Three employees of the Canada Land, Geo. Leith, Paul Lord and Martin Anderson met with a serious accident last Saturday when their truck overturned as they were returning from the west flume. The accident was due to a defect in the steering mechanism. Mr. Leith received to the left hand while the other two were unharmed.

A few of Arrowwood's lending Curriers made the trip to Gleichen on Monday to take part Gleichen's annual Bonspiel. Although they did not get into the jewelry this year they report a very enjoyable and sociable time was had by all. Those who took part were E. Lewendon, R. Dahl, D. Duncan H. Sharland and D. J. Beagle. Better luck next time.

The Arrowwood bus overturned at Chetum Lake Saturday night last when a tire blew out causing the accident. Messrs. R. Oliver and E. Harp of Arrowwood were passengers at the time and both were considerably shaken up. It was thought at first that Mr. Harp's

Dominion - Provincial Seed Exchange 1934-35

Farmers wishing to take advantage of the above seed exchange policy, should consult the local elevator agents for particulars.

Shouldice News

Mr. J. Taylor, who has been quite ill the past week is able to be around again.

Mrs. R. Allan who was so badly burnt last week, is doing nicely.

A number of friends surprised Mrs. Weberg last Tuesday, Feb. 5th. Bridge was enjoyed by all till the early hours of the morning, there being three tables in play. Those present were: Mr. and Mrs. J. Winkler, Messrs. E. and F. Winkler, Mr. Ives, Miss T. Lewis, Mrs. M. Lavenden, Mr. and Mrs. Don Yull and daughter Iva May, Mr. Otto Young, Mr. J. Taylor and Mrs. Weberg.

The ballots for the Social Credit straw vote have arrived in Shouldice. It is requested that all those intending to vote do so as soon as possible.

The Swastika School District held a bridge and in Shouldice hall on Friday, Feb. 8th. The ladies' first prize went to Mrs. J. McEneaney and the gentlemen's first to Mr. J. McEneaney, Miss Edith Harp got the ladies' consolation and Mr. Stow the gent's.

Mr. and Mrs. M. Edwards and daughter Barbara, were visitors Vulcan the past week-end.

When Mr. Harp, delegate to Trustees' Convention at Edmonton, was returning home last Saturday night, the bus in which he was riding turned over, injuring him quite badly. Here's wishing Mr. Harp a speedy recovery.

It is to be hoped that people in the Shouldice district who are interested in Social Credit will co-operate with Queenstown Group which is studying with the Milo Group. This will make the expenses much easier. The first meeting in Queenstown will be held on February 26th. There was a meeting in Milo on Tuesday, Feb. 12th. They hope to meet every two weeks alternately.

TRAIN SCHEDULE AT GLEICHEN

No. 1 Westbound	8:25 p.m.
No. 2 Westbound	8:45 a.m.
No. 3 Eastbound	4:31 a.m.
No. 4 Eastbound	7:08 p.m.

Arrowwood

Westbound, Tues., Thurs., 1 pm
Eastbound, Wed., Fri., 1:30 p.m.

condition was critical but at time of going to press we understand that he is at home but still receiving medical aid from Dr. Liesemer.

The Calgary Presbytery of the United Church meets in the Central Church next Wednesday morning, Feb. 19, at nine o'clock.

How to Keep Colds UNDER BETTER CONTROL

When Colds THREATEN If a Cold STRIKES

VICKS VAPORUB
At the first onset of a cold
irritation, quick use of Vicks
VapoRub helps to prevent many
colds, and to throw off colds
in their early stages.

VICKS VAPORUB
At bedtime, massage throat
and chest with Vicks Vapo-
Rub, the mother's standby in
treating colds. All viruses leave
by stimulation and inhalation.
VapoRub brings direct relief.

To Build Resistance to Colds: Follow the plan of health that
developed at the University tested Vicks Plan for Better Control
of Colds. (The Plan fully explained in each Vicks package.)

VICKS PLAN FOR BETTER CONTROL OF COLDS

Appraisals of Progress

"If we are to take stock of the world's advance in 1934, let us first take stock of ourselves." With this challenge to the conventional New Year appraisals of progress, Dr. Robert A. Millikan, distinguished scientist and Nobel Prize winner, contributes to the January American Magazine what is described in an editorial review in "The Reader's Digest" as one of the truly stimulating articles of the month.

It is stimulating, and for that reason we utilize this column to reproduce "The Reader's Digest" editorial review of Dr. Millikan's article. It says: "Dropping for the moment his famous name, Dr. Robert A. Millikan seeks for rays of hope in the cosmos of human aspirations. The usual end of the only thing that the rest of the world is making a 'advance.' Records of transportation are important, but not so important as whether the men who last year used our cars were more thoughtful and kindly than those who were transported the year before. We want to know how they got about and forget how to walk peacefully and reflectively on the sidewalks."

The number of miles traveled in automobiles is not as significant as what we saw and felt on the road and what we saw and felt in the crossings, or were we chivalrous as knights? How many boys did we grant with our cars to the lane, the lane, the shut-in? And "how many times did we drive alone to a hilltop to read and to meditate, hungering for betterment?" Just as human values transcend statistics, so we must use the golden rule to measure true progress.

Our improved communication, whether by radio, telephone, or transatlantic cable, does not of itself denote a higher civilization. The main question is: What was communicated? Fear and prejudice? Did our remarkable facilities tend to promote hate and greed, base ideas and false sentiments? Or did they reflect sounder thinking, more generous and humane impulses?

What if we did make a staggering number of telephone calls or talk freely to London and Paris? That is of small account compared with whether or not we used the telephone as an instrument of fellowship. Did we still make our own decisions? Did we still have the right to be free and to be free? There was no progress if we grew into the machine and failed to employ the phone for more intelligent, gracious conversation. The fact that some of our tall buildings are gloomy and half occupied becomes really tragic only as the minds of those who use them become gloomy and half occupied. Not how tall the buildings but what goes on in them is the vital standard. Do new buildings count as better working conditions and larger opportunities?

Let us not be deceived by the production of our farms and factories. The supreme question is, did we grow in mental, moral and physical stature. Not how fast the wheels turned in 1934, but how slow and firm were the feet of thoughtful men upon the earth. Not how much improved material design, but how much we improved the motor of men—the knowledge, the understanding, the purpose.

Stratophages and things were made in 1934, but what of the aspirations of those who remained? "In 1933, perhaps," Dr. Millikan writes, "if we are thoughtful and honest and kind and courageous we may ascend a little way toward our own stratophages—the mysterious altitudes of ourselves."

Wanted Bells Used

Unless They Were Donor Would Not

At Mount Rainier National Park, Wash.

Antonio Giovanni Rebagliati, pioneer merchant of the Cariboo, has heard the peal of the bells he donated many years ago to the church in Lytton, B.C., and has returned to worship with his neighbors.

For many years the bells had not been rung because residents complained of the noise. "Ring my bells or I do not go to church," said Rebagliati. At last his words have been heeded, the bells have been rung on Sundays and the merchant attends church regularly.

Football coach (to players): "And remember that football develops individuality, initiative and leadership. I now get in there and do exactly as I tell you."

Mountain goats are increasing in Mount Rainier National Park, Wash.

Kidney Troubles

name poisons to accumulate in the system and bring on pernicious Backache, Lumbago, Rheumatism, Headache, etc. Take GIN PILL to restore the kidneys. A healthy condition and eliminate the poisons from your system.

Two little women were gazing at a statue in a zoo.

"What a funny animal!" said one.

"What is it?"

"I don't know," replied the other little fellow, "but it's a sports model donkey, I think."

Would Be Safe

"Are you fond of toffee?" asked the little wife of a lady who was assisting at a party.

"No thank you, my dear."

"Then will you look after this for me please?"

Royal Bank of Canada

Presents Strong Statement

Morris W. Wilson, President and Managing Director, Notes Distinct Improvement in Business—Looks Forward to 1935 With Confidence.

Sydney G. Dobson, General Manager, Reviews Financial Statements—Reports \$50,000,000 Increase in Deposits

At the twenty-sixth Annual Meeting of the Royal Bank of Canada, held at the Bank of Canada, Toronto, on Monday, the 26th inst., a great strain upon the capitalistic system. That system has been the result of a process of evolution and as such has been subject to modifications from time to time to meet changing conditions. Further modifications and changes may be a necessity if we are to be rid of the evils of major depression. The difficulties in the distant past were the outcome of short-ages. At the present moment the situation is not so simple. It is a distribution of an increasing surplus which tends to exceed purchasing power. Increasing attention must be given to measures which will provide and more convenient ways of exchanging of goods and services. Insofar as the "New Deal" in the United States and the economic expansion of other parts of the world may provide a means of escape from this problem, we should not hesitate to profit by that solution. Social and economic experiments which fail, however, are usually costly and it is prudent and expedient to be ready to maintain fundamental principles of the existing system.

In commenting on the strong Statement presented to the meeting, Mr. Wilson said that it reflected a year of operations under distinctly improved conditions, both at home and abroad. Referring to the recent revision of the Bank Act and the incorporation of the Bank of Canada, he stated that at the public hearings preceding these enactments the bank was able to justify their administration. He warned that the future of earning power resulting from restrictions upon interest rates chargeable by banks and the withdrawal of interest privileges will inevitably reduce the ability of banks to maintain unproductive branches in small communities. Banking profits have never been excessive, and an efficient banking system is to be maintained, there is a policy of enforced economies to meet falling revenues on tax, and increased taxation on the other hand, must be carried.

Referring to taxation, Mr. Wilson said: "For every dollar paid in dividends last year we paid sixty-six cents to the Canadian tax-gatherer. This was not taken into account in the tax paid by our shareholders in the amounts received from the Bank. It is a heavy burden upon the taxpayer."

In discussing the improved conditions in Canada, Mr. Wilson pointed out that during the past year manufacturing and mining had approximated the levels of 1926; iron and steel production, however, had increased by 10 per cent. The value of field crops had increased by 10 per cent. The value of manufactured goods had increased and the value of exports had advanced substantially. The wheat crop was no larger, but the value of the crop was increased. The value of field crops had increased by 10 per cent. The value of manufactured goods had increased and the value of exports had advanced substantially. The wheat crop was no larger, but the value of the crop was increased.

The fact that some of our tall buildings are gloomy and half occupied becomes really tragic only as the minds of those who use them become gloomy and half occupied. Not how tall the buildings but what goes on in them is the vital standard. Do new buildings count as better working conditions and larger opportunities? Let us not be deceived by the production of our farms and factories. The supreme question is, did we grow in mental, moral and physical stature. Not how fast the wheels turned in 1934, but how slow and firm were the feet of thoughtful men upon the earth. Not how much improved material design, but how much we improved the motor of men—the knowledge, the understanding, the purpose.

Stratophages and things were made in 1934, but what of the aspirations of those who remained? "In 1933, perhaps," Dr. Millikan writes, "if we are thoughtful and honest and kind and courageous we may ascend a little way toward our own stratophages—the mysterious altitudes of ourselves."

THE TENDERFOOT

By GEORGE B. RODNEY

Author of "The Coronado Trail," "The Canyon Trail," Etc.

SYNOPSIS

"You'll find her in a half-moon plenty of trouble," the lawyer told Gerald Keene. "The broken spur means systematically looting the land, and old Joe Carr, your partner, is grubstaking him, of his discovery of a rich gold mine, and shows samples of the ore. He sees Broken Spur prospecting four-glass cuts and protests against it."

Flood of Dustin's cattle stallion activities was accidentally discovered by Stone, who accompanied by Keith Carr was riding fence a long way from the Hour-glass ranch house.

For Dustin's son, Soda Springs dispute could be settled by making him with remarks that make Dustin furious. He insults Stone, who promptly shoots him into a pool of water.

Stone tells Carr, his former ally, that Dustin would kill him if he got the chance. Stone and Carr go to Seco to send a telegram to Gerald Keene. While at Seco all attempt is made to kill Stone with a gun, but proves more than a match for his name.

Dustin learns that Gerald Keene has been sent for, and also that Broken Spur means the Broken Spur means that Dustin is in the location of his gold discovery and captures it.

They go back to camp, and Dustin shoots him. He sees the shooting of the cowboy, a drug addict, who is stupefied by the narcotic he had taken, did not know whether he was guilty or not. They bury Carr and then return to the Broken Spur ranch.

Meanwhile at the Hour-glass, Carr and Stone speculate as to the meaning of entries in the notebook belonging to Dad Kane. Stone is found. Stone thinks of a possible solution, and accompanied by Keith Carr, rides out to Red Water to ask his theory.

(Now to With The Story)

CHAPTER X—Continued

"Seven what," he demanded. "What was measuring by?"

"Stone dragged out his wallet and took a look and deliberately set about lighting a cigarette."

"It may be all right," he said. "I'm not just a fool but I'm not a fool either. Well! Listen." "You see old Kane, being a desert rat, never carried any measure tape line. He probably carried even a watch. Hardly any of 'em do. They tell time by the sun. Of course that distance is not a very good estimate, but he has a way of estimating how far a mile is. What can it be? You guess."

"But 'fraid 'fraid," said Stone, head and watched him. He grinned at her.

"If you guess," he said. "I've heard it's a common measure. Along and below the border and in Mexico. It can't hurt any try it and see."

"Seven ones, would be the distance he would travel in smoking seven and one-tenth cigarettes. You take this watch and time me while I smoke seven ones. I must not be hurried through it, you know. I won't smoke it in the leisurely way old Kane smokes when he's hooded, sitting behind his jackass at about a mile and a half an hour."

"They do a little better than that," she laughed, "but you may be right. It can't hurt any to try. Give me the watch."

He sat on a rock at her feet and in between puffs at that cigarette as studied her profile as she kept her eyes on the watch.

"Seven minutes and a half," he said finally. And neither of them knew that in those seven minutes Fate had dealt a new hand to them both.

"What's got that?" said Stone after forty-five minutes. "That makes what a white-bird. While he's been ought not to be so stupid. He's been and... Well, yes, well, he's been. It's too good to ride."

For nearly an hour they blundered their way heavily on the canon and finally paused at a startled stone. "Stone let out a whoop of delight."

"It's right," he said. "I'm right. I'm right. I'll roll three this time and keep check on you. The trail is rougher here." And with both tails aching at his side he headed up the valley.

"Bunk can," he said breathlessly. "I wonder why he went 'sunk out' of his mind. He must have been a little bit of a fool."

"Wonder you get that 'sunk out'?" he countered merrily. "Well, here, Mr. Dustin. You clean with me. You can pull the

"Old Kane knows more than I give him credit for," he said. "Did you ever read any surveying, Edith? No? I thought not. Well, I'll tell you something. Out in the West where trees are by no means plentiful, surveyors have to use the most permanent means they can to mark the claims they desire. Back that trees are used. Out here they have to use what they can get. They have found that charcoal buried in the places they want to mark, is the permanent means. The autumn of charcoal marks a corner of the claim that old Kane had selected. He's run his lines from this corner so as to include all the land he thinks has got on it. That's what he's after, of course."

"I should have thought he would have described the claim in his notebook," she said.

"No. That's where he's weak. Don't you see? He's a partner of this man Dustin's and he doesn't trust Dustin. That's it. Do you happen to know whether this is Hour-glass ranch?"

"I am sure it is," she said. "Our lines run along that far crest."

"What's the matter?" she asked sharply. "What are you looking at?"

"Duro Stone, who had studied his part from the catalog of his department stores, was standing at gaze and his eyes were focused on a new cut in the high note a hundred feet away from them."

"He did not pause for explanations. He moved at that cut and disappeared into the brush, and was back presently with both hands filled with great chunks of ore."

"(To Be Continued)"

Exhibition Dates Set

Western Canada Association Holds Annual Meeting in Winnipeg

The most important event of the report in two years was laid before delegates to the Western Canada Fair Association annual meeting at Winnipeg by their secretary, Keith Stewart.

"With almost no exception, fair boards were well satisfied last summer and reported increased returns," he reported. "Everybody made a little more, more than the previous year," he said.

"E. L. Lindsay, director of the Regina exhibition, was elected president of the Western Canada Association of Exhibitions. J. E. Rott, Brandon, was elected vice-president."

Exhibition dates for next summer were set by the association: Brandon, July 1-5; Calgary, July 8-13; Edmonton, July 15-20; Saskatoon, July 20-27; Regina, July 29-Aug. 3.

THE RHYMING OPTIMIST

By Aline Michaels

TEST SHOW

How valiantly they pace these boards, how forcefully proclaim their words! What eager swords flash forth in honor's name!

As night on light the audience, How well these players feel suspense. What curvies, loves and hates!

Wind swells the canvas, great poles away, Gulls, creaking, strain and give. While not one more the actors play Is strange as those they live.

By night, how many a lordly man, Great scholars, artists rare! When can that man with wit and grace, Boast with wit and care!

And still they go with courage keen And matchless gallantry, Not to prove in stinging darts and line How splendid life can be!

Holidays In 1935

New Year's Day, the first holiday in any year, already has been enjoyed. Public holidays (some of them only holidays to be noted forward to these:

Good Friday, April 19.
Easter Monday, April 22.
Victoria Day, Friday, May 24.
King's Birthday, Monday, June 3.
Dominion Day, Monday, July 1.
Civic Holiday, Monday, Aug. 5.
Labour Day, Monday, Sept. 2.
Thanksgiving Day, Monday, Oct. 7 (or 14).
Christmas—Day, Wednesday, Dec. 25.

Mrs. Woods—"Why did Miss Oldman discharge her garden?"

Mrs. Woods—"Because he kept saying he had grown gray in her service."

"It is not how many years we live, but what we do with them."

Warehouses at Calgary, Edmonton, Regina and Winnipeg

TRY FASTER WAY TO RELIEVE A COLD

1. Take 2 Aspirin tablets.

2. Drink full glass of water. Treatments in 2 hours.

3. If throat is sore, warm and dry Aspirin tablets in a glass of water. Aspirin tablets in a glass of water. Aspirin tablets in a glass of water.

DOES NOT HARM THE HEART

Little Helps For This Week

"Finally, my brethren, be strong in the Lord and in the power of His might." Ephesians 6:10.

"No man can serve two masters." Matthew 6:24.

Oh, there are heavenly heights to reach. In many a fearful place, Where the poor timid heir of God Lies blindly on his face.

Lies languishing for grace divine That he shall never see. Till he go forward at the sign, And trust himself to Thee.

Reservations the latent in the mind concerning some habits in the present, some possibly impending temptations in the future, and thus go we about our lives at the point of entire faithfulness wherein conscience could reward us. If we would but give ourselves wholly to God, give up for the present and the future, every thought and above all, every thought and every feeling, to be all purified to the utmost, then would sacrifice bear with it a peace rendering itself truly believe far easier than before."

Presumptive tries were invented in 1889 by an Irish physician who wanted to make a long bicycle ride to school more comfortable for his young son.

"He alone has lost the art to live who cannot win new friends."

Church of the Brethren Notes

Notice to B.Y.P.C.s. at home of Mr. and Mrs. Hall.
Valentine's Day we'll celebrate With games and hearty laughter;
Next Tuesday night we'll meet at eight
Don't come a minute after.

The semi-annual observance of the ordinances instituted by the Lord Jesus will be held on Saturday evening of this week at 7.30. Every member should be present.

Rev. G. C. Long of Iricana plans to be here for the services Saturday night and Sunday. Several other ministers intend to accompany him. So the services will be exceptionally well cared for both days.

The visiting ministers are coming for a ministerial conference. There will also be a meeting of the District Mission Board while the visitors are here.

Hockey Notes

Although there has been little hockey action at the local rink for the past few weeks the Arrowwood Cardinals swung back into action Saturday night last when they journeyed to Rockyford for a return engagement with the team there. Local fans were doubtful as to what the outcome of the game would be but Arrowwood showed much superiority at Rockyford ice and left the ice with a 6-2 victory.

The Cards were without the services of Gualle Sharpe but Floyd Cary proved a worthy substitute, guarding the fort perfectly for two periods and making miraculous saves throughout the game. Stuart Beagle was also absent from the regular lineup but Ernie Norton played his position, and showed his effectiveness by scoring on three different occasions. Clarence Norton collected 2 goals while F. Mason bagged the other. Assists were gathered by Oliver, McCullough, F. Mason and E. Mason.

The game was rough throughout but the Cards battled hard all the way when short-handed to pile up a score of 5-0 by the end of the second period.
Acc'd—Cary, Stull, C. Beagle, N. Dumka; Mason, C. Norton, McCullough, E. Norton, Oliver, Asseltine, E. Mason.

Said of Scouting by Public Men

Lord Baden-Powell — "The basis-Honour! The basis of character training is the cultivation and practice of the sense of honour. If scouting did no more than evoke this one attribute among all other classes it would be worth while for honour is the root foundation for a sound, high-souled nation. It is a guarantee of straight dealing in business and politics in place of cunning dishonesty graft and corruption.

"Let us therefore go back to our respective countries inspired with fresh hope and wider vision, as apostles of Scouting to our own people. . . . If each of us, whether boy or man, does his bit to promote good-will and wider friendship as we can through Scouting—in place of existing narrow instincts of self, or one's clan versus others, we shall be helping to spread the spirit of Love, and thereby bring about the greatest of all hopes, God's Kingdom upon Earth."

H.R.H. The Duke of Connaught—"I know of no organization or institution—not even the schools or Sunday schools, nor anything else that does so much to promote the development of the boy along safe, sane, sound British lines and the future of this country depends entirely on what we do for the Boy through the Boy Scouts and what we do for the Girl through the Girl Guides. These are forces in the community which have been very much overlooked, up to the present time."

His Excellency, the Earl of Bessborough—"It is not easy to name any other organization that has obtained such world-wide dimensions and at the same time such world-wide ap. proved."

"There is very clear evidence of a return to prosperity in Canada due to a greater feeling of confidence," was a recent declaration of Lord Ilfric, owner of more British trade papers than any other publisher in the United Kingdom, interviewed aboard the Empress of Britain.

From every state of the Union and every province of the Dominion delegates to the 15th annual communication of the Sovereign Grand Lodge of the Independent Order of Oddfellows assembled in convention at the Royal York Hotel, Toronto, recently. They were greeted by the Lieutenant-Governor of Ontario and the Mayor of Toronto.

Here and There

Canadian Pacific liner Empress of Britain, flagship of the lines of the company, sails January 19 from New York on its fourth round-the-world cruise, visiting 31 ports in 130 days. Returns to New York is scheduled for May 28, 1935. More than 31,000 miles will be covered by the ship on this cruise. This is Canadian Pacific's twelfth annual world cruise.

Four years old and still breaking records, the \$2,000,000 Empress of Japan, newest and biggest of the Canadian Pacific Steamships Pacific fleet, made the run, Honolulu to Yokohama in six days, 14 hours, 25 minutes, putting the ship in possession of speed supremacy for all ages of the Pacific crossing.

R. Cornwallis, fireman, Canadian Pacific Railway, Engineer James Y. Ross and Tactician J. Brophy, Fort Arthur, aboard rail engine "444" pulling 150 empty cars from Fort Arthur to Fort William, saw a woman lay her head on the rails just ahead of the engine. Cornwallis leapt through the cab window and from the front floor board jumped just in time to drag the woman clear of the track.

Miss Agnesa Zinghach, slim girl Alpine, New York, summer climber Mount Assiniboine, highest peak in the Canadian Rockies, and in doing so completed her 100th ascent in the Banff-Lake Louise area. Two years ago she set a new woman's endurance championship by scaling 35 peaks in a single summer in that section.

Low winter fares good from December 15 to February 28 are being offered by the railways covering round trips to Canada's Evergreen Playground, that favored region in British Columbia called Vancouver Island, with the beautiful capital of the province, Victoria, and all the sports attractions of summer available during the winter months brought within the purse limits of the average Canadian.

The big event of 1935 will be the pageantry and picturesque functions of the 25th anniversary of King George's accession to the throne, set for May 8 next, which will continue until well into July. Summer sailings of Canadian Pacific liners have been planned to coincide with these events.

The Laurentians, Eastern Canada's winter playground, face the biggest season in their history with an ambitious programme of ski events calling for 19 meets of various kinds, not counting the Dominion and International Intercollegiate championships extending from January 1 to April 31. It is announced by the Laurentian Zone committee of the Canadian Amateur Ski Association.

Recommendation of immediate implementation of the Better Commission's report for professional ranks of the Civil Service of Canada was unanimously concurred in at a business session of the Professional Institute of the Civil Service held recently at Ottawa.

Center-Poise Riding in a

Passengers Loaded Close to Center of Car

Three major engineering principles combine to give to the new Ford V-8 for 1935 what Ford engineers term the "centre-poise" ride, according to Larsen Implementers, local Ford dealers.

These principles are: Correct spring suspension, involving equality of front and rear spring flexibility. Proper car weight balance and passenger weight distribution.

Location of passengers close to centre of the car. Utilization of these in combination as practiced by Ford engineers, achieves for the new Ford V-8 remarkable improvement in riding comfort without sacrifice of either safety or stability.
